

Material Receivers

TMM & TMX Series

The material receivers of the **TMM series**, completely made of stainless steel, were designed to be used in centralised feeding systems MATRIX 4.0. There are 8 models from 2 dm³ to 100dm³.

The material receivers of the **TMX series**, with a Pyrex-glass body, were designed to be used in centralised feeding systems MATRIX 4.0. There are 3 models from 4 dm³ to 25dm³.

Technical Specifications

- ▶ Stainless steel structure.
- ▶ Hinged cover.
- ▶ High-vacuum operation.
- ▶ Automatic filter cleaning.
- ▶ Flap-type outlet valve and wear-resistant gasket.
- ▶ Air vent with door and integrated metal filter.
- ▶ ETHERNET connection

Added Value

- ▶ Easy to use.
- ▶ Easy cleaning and maintenance.
- ▶ Safe and reliable.
- ▶ Fast installation with a 360° orientation.
- ▶ Status indicator.

Accessories

- ▶ Pneumatic discharge.
- ▶ Proportioning valve.
- ▶ It can be integrated with MWS weighing system.
